Strategic clarity on short notice

Many values-led organizations do not have the capacity — or the need — for a full strategic planning process right now. But they *do* need clarity.

A **Strategy Sprint** is a short, facilitated process that helps Boards and leadership teams step back from day-to-day pressures, focus on what matters most, identify immediate priorities, and make confident decisions in the midst of complexity and change.

A Strategy Sprint creates space to:

- Clarify priorities for the next 3–6 months
- Identify decisions requiring immediate attention
- Re-focus around your strategic plan (if you have one)
- Align leadership and Board perspectives
- Navigate uncertainty without launching a major planning process
- Reduce overwhelm and improve decision-making confidence
- Move forward with greater conviction and clarity

A Strategy Sprint helps leadership teams sort what needs attention now from what can wait.

SPRINT OPTIONS

MINI SPRINT

For organizations needing a quick reset or focused conversation.

CORE SPRINT

For when you need to align priorities in real time.

EXPANDED SPRINT

For when your team needs time to untangle complexity and chart a path forward across multiple initiatives without writing a whole new plan.
